

The 16th eLearning Conference convenes professionals from fifteen community colleges and nine state universities across the state. Last year, we had over 900 attendees, including college and university officials, administrators, staff, technologists, and faculty teaching courses online.

This is a fantastic opportunity to:

- Offer professional development opportunity to demonstrate your product
- Network with the MCO community and other educational partners
- Be recognized leaders in the field of online learning

Vendor Partner Options: (see below)

- Gold – Exclusive selection to present and target audience \$2500.
- Silver – Multiple opportunities to present and engage. \$2000.
- Bronze – Opportunities to present and interact. \$900

Vendor Prize Sponsor:

Vendors can sponsor raffle prizes awarded at the end of the Conference during the last scheduled event. Please contact Melba Acevedo for more information.

Vendor Presentations:

For vendor presentations, if possible, MCO suggests that vendor presentations have a faculty partner presenting on behalf of their product, i.e., demonstrating how it is used in a virtual learning setting.

There are limited virtual time slots available. **Please reserve your time slot and sponsorship level by contacting me, Melba, at macevedo@necc.mass.edu.** We would look forward to sharing your work with the higher education community in Massachusetts.
